FOR IMMEDIATE RELEASE

Maintenance Work on N-92 Near David City

Weather permitting, a chip seal project will begin the week of June 29 on N-92, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 411 to Reference Post 421 south of David City then west towards Rising City. The work is anticipated to take six days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. The speed limit through this area will be reduced to 45 mph. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
