CALL REPORT DETAILS (Narrative of Call/Contact)*

I called the body shop and Jay answered. I asked if he had any questions that I might need to check up on. He said that he probably will have some but he is going over this stuff with his wife and he wants to read it pretty carefully. He is not going to rush into this thing because he had dealings with the Roads Dept. on another project and he wasn't very happy with it. When you sign it and notarize it, you're done. So he wants to be sure he knows what he is doing this time. He will probalby have some questions first part of next week. I said that is fine and thanked him. He thanked me.
