FOR IMMEDIATE RELEASE

Hershey Viaduct
TMT-L56C(1010)

Weather permitting, construction will resume on L-56C March 7, on the South Platte River Bridge at R.P. 2.00, south of Hershey. Traffic will be reduced to one lane and controlled by traffic signals with a 12' maximum width restriction. The South Platte River Bridge work is anticipated to be completed in May of 2016.

Work will continue on the new railroad viaduct and grading for the new roadway. Concrete pavement work is anticipated to start early summer 2016 and continue through the fall of 2016.

Motorists are reminded to be extra careful in and near highway work zones, and to buckle up, every trip.
