FOR IMMEDIATE RELEASE

Maintenance Work on US-6 Near Milford

Weather permitting, a chip seal project will begin June 28 on US-6, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 290 to Reference Post 293 three miles west of Milford. The work is anticipated to take two days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
