FOR IMMEDIATE RELEASE

## Maintenance Work on US-6 from Greenwood to Ashland

Weather permitting, a chip seal project will begin August 2 on US-6, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 331 to Reference Post 337 from Greenwood to Ashland. The work is anticipated to take three days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
