FOR IMMEDIATE RELEASE

Maintenance Work on US-77 East of Wahoo

Weather permitting, a chip seal project will begin August 16 on US-77, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 95 to Reference Post 111 east of Wahoo. The work is anticipated to take ten days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. The speed limit through this area will be reduced to 50 mph. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
