FOR IMMEDIATE RELEASE

Work Progressing on N-2 in Lincoln with Temporary Weekend Lane Closures

Weather permitting, Constructors, Inc., of Lincoln, Nebraska, plans to have temporary single lane closures on N-2 during the daytime on Saturday, August 20, and Sunday, August 21, to allow for profile grinding of the new asphalt surface, according to the Nebraska Department of Roads.

Through traffic on N-2 will be maintained in one lane in the area of the temporary closures. This work will resume again on Monday night, August 22, with the use of lane closures as necessary to complete the work. The work is anticipated to be complete mid-week.

The Department of Roads' project manager is Brian Schoen of Lincoln. Motorists are asked to watch for lane closure signage and, as always, drive safely through construction zones.
