**FOR IMMEDIATE RELEASE**

## Work to Begin at FEVR Crossings in Dodge County

October 6, 2016 (Omaha, Neb.) — Weather permitting, beginning Monday October 10, until December 2016 work on US-30 at Reference Post 426.88 (northeast of Fremont) will move to Phase 2, according to the Nebraska Department of Roads.

This work will cause lane shifts and closures, however, traffic will be maintained throughout. The lane width on US-30 at Reference Post 426.88 site will be reduced to 11 feet. Please consider this restriction when planning your route. These lane closures and restrictions are necessary to facilitate the removal of the FEVR railroad crossings at these locations.

Iowa Erosion Control of Victor, Iowa is the contractor on this project.
