**FOR IMMEDIATE RELEASE**

## Work Continues on the Kearney East Bypass Phase II

October 7, 2016 (Grand Island, Neb.) — Weather permitting, beginning October 10, an inside lane closure on eastbound and westbound lanes will be erected on US-30, from east of Cherry Avenue to just west of the new bridges over the highway. The contractor will remove existing concrete pavement and build new concrete pavement and median surfacing where the new L-10F link road intersects with US-30, according to the Nebraska Department of Roads.

Werner Construction Company, Inc., of Hastings, Nebraska, has the contract for the \$26.5 million project, which is Phase II of the Kearney East Bypass construction. Motorists can expect some delays, with construction equipment in close proximity to the open lanes. Work is anticipated to be completed in late October, weather permitting.

The Department of Roads' project manager is Tom Farber of Kearney. Motorists are asked to drive cautiously through the construction work zone.
