

# NEBRASKA DEPARTMENT OF ROADS NOTICE OF HIGHWAY PUBLIC MEETING

**Thursday, December 1, 2016; 4:00 - 6:00 PM**

*Information Open House Public Meeting*

**Dalton Senior Center**

**224 Main Street, Dalton, Nebraska**

**NH-385-2(112) IN DALTON; C.N. 51502**

The Nebraska Department of Roads (NDOR) will hold a public information open house regarding proposed improvements of U.S. Highway 385 (US-385) in Cheyenne County, within the corporate limits of Dalton. The meeting will be held at the Dalton Senior Center, 224 Main Street, in Dalton on Thurs., December 1<sup>st</sup> from 4:00 – 6:00 P.M.

Identified as *In Dalton*, the proposed project would reconstruct approximately 0.39 miles of the existing pavement on US-385, starting at the intersection of US-385 and Wano Street, at mile marker (MM) 52+01, and extending north to approximately 300 feet north of State Street, at MM 52+40. Construction would begin and/or end approximately 200 feet ahead of or beyond the actual project limits to accommodate transitioning the pavement.

The purpose of the proposed project is to preserve the US-385 transportation asset, improve the reliability of the transportation system, and perpetuate the mobility of the traveling public. The need for this proposed project is based on the condition of the existing roadway and recent inspections showing that rehabilitation would be required.

The planned construction would include removing the existing asphalt pavement, curb and gutter, and sidewalks, and constructing new concrete pavement including a two-way left-turn lane between South Park Street and State Street, a southbound left turn lane at State Street, parking spaces, sidewalks and curb ramps, new storm sewer system, retaining walls and other miscellaneous items. Parking would be reconfigured to parallel-type parking between South Park Street and Francis Street. On-street parking would be prohibited along the remainder of the project.

This project would require the acquisition of additional property rights including new right-of-way (ROW), and temporary easements (TE) for construction throughout the project area. Access to adjacent properties would be maintained during construction but may be limited at times due to phasing requirements.

As a result of the proposed project, potential impacts are anticipated at North Park, located at the northwest corner of US-385 and State Street. Approximately 48 square feet of temporary easement within the park would be required for new curb ramps to be constructed at the northwest corner of US-385 and State Street.

Additionally, the gravel driveway on the east side of the park would be relocated to the west side of the park in order to eliminate the risk associated with backing a vehicle onto US-385. Temporary easements would also be required for the driveway work.

Construction could begin as early as spring of 2018 and be complete by the fall of the same year. The proposed project would be phased, in order to avoid detouring traffic. Temporary signals would be used to control traffic where alternating one-way traffic flow would be necessary.

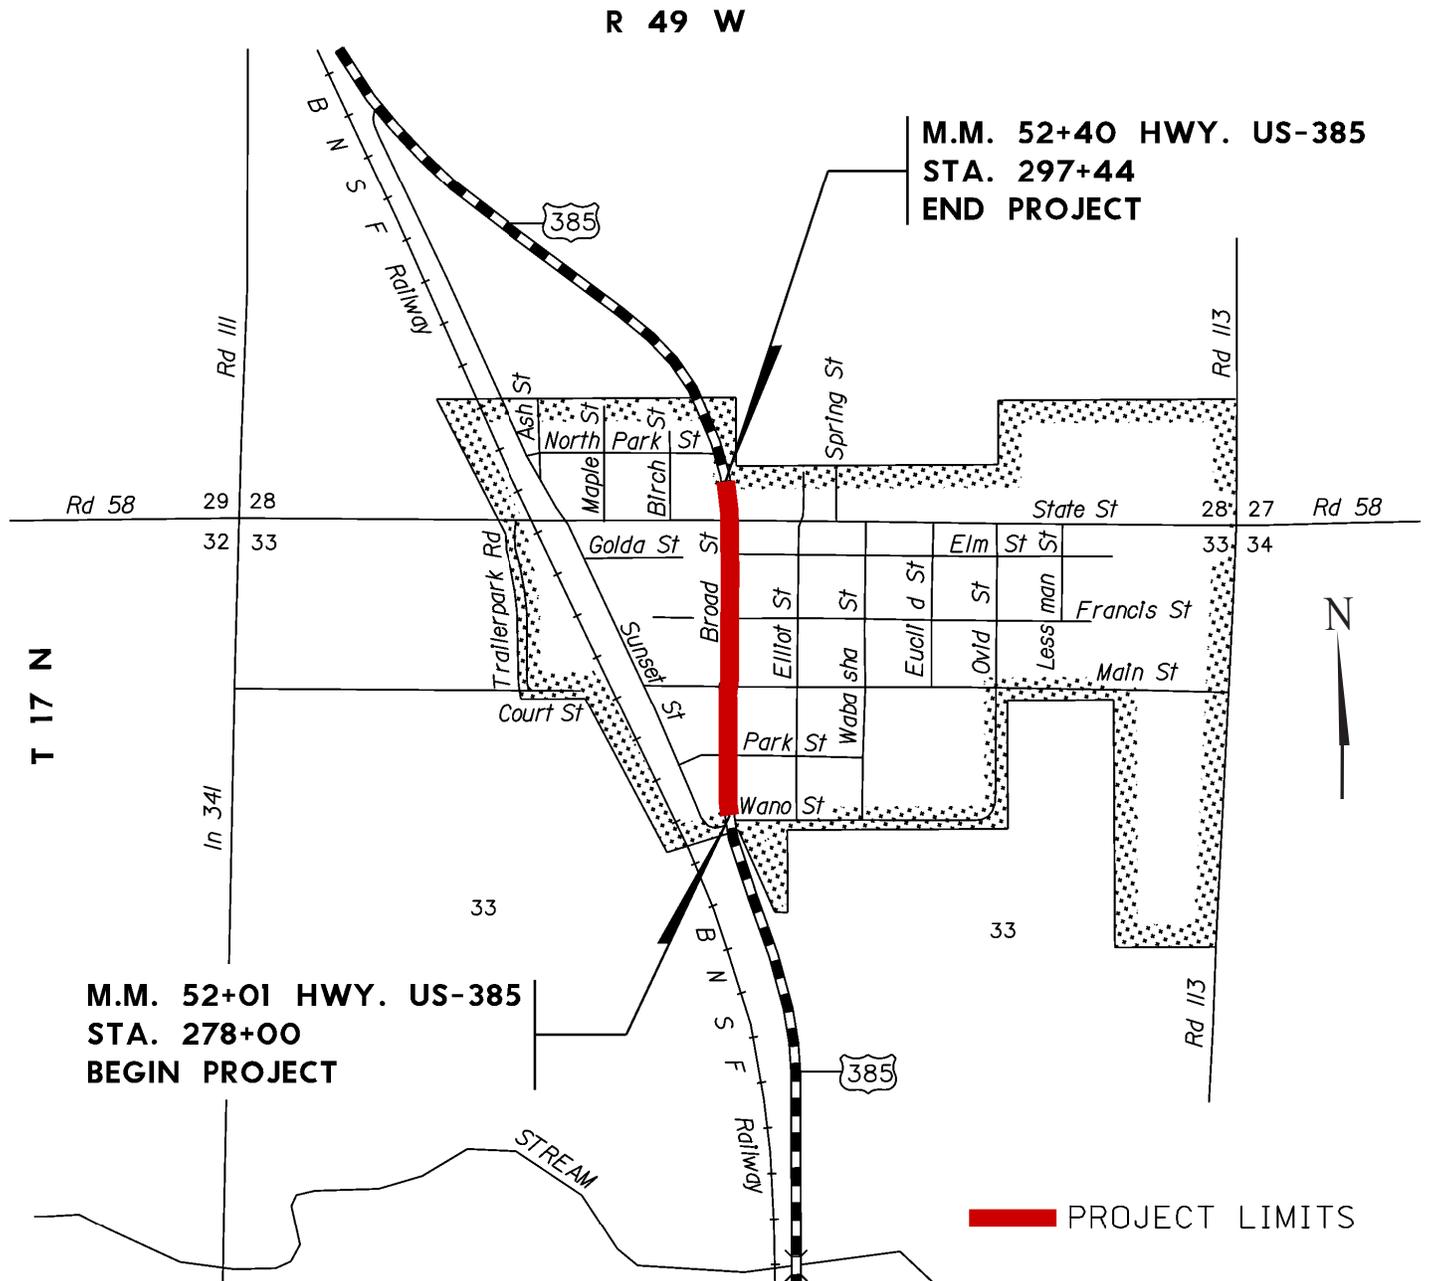

---

NDOR will make every reasonable accommodation to provide an accessible meeting facility for all persons. Appropriate provisions for the hearing and visually challenged or persons with Limited English Proficiency (LEP) will be made if the Department is notified by November 21, 2016. The public is being encouraged to make suggestions or express concerns regarding this proposed project. Comments will be collected through December 16, 2016. Written comments or requests should be submitted to: Sarah Kugler, Public Involvement Manager, Nebraska Department of Roads, P.O. Box 94759, Lincoln, NE 68509-4759; [sarah.kugler@nebraska.gov](mailto:sarah.kugler@nebraska.gov); voice telephone (402)479-4871; fax (402)479-3989.

Information regarding the proposed project will be made available on the NDOR website at <http://roads.nebraska.gov/projects/future-projects/> by clicking on the “In Dalton” link. For those without internet access, information may be obtained through the contact above or at NDOR Headquarters, 1500 Hwy. 2, Lincoln, NE. For further information, contact Doug Hoevet, NDOR District 5 Engineer, (308)436-6587, [doug.hoevet@nebraska.gov](mailto:doug.hoevet@nebraska.gov).
