

INSPECTION STATIONS IN NEBRASKA

Inspection Stations provide information to parents, caregivers, and providers about the right seat for their child and how to properly install a child safety seat. Child Passenger Safety technicians will provide hands on education on installation, making sure you have the right seat and securing the seat safely into your vehicle. Inspection Stations were established using federal funds to ensure every Nebraskan has access to a child passenger safety seat to keep children safe as they travel.

In addition to the Inspection Stations, there are also community Check-up Events. Check-Up Events are set up in public areas (i.e., library, shopping mall, and auto dealership) and conducted for a set period of time (usually 3-4 hours). To find out when the next Check-Up event will be held in your area, visit www.safekidsnebraska.org and click on “Upcoming Events/Full Calendar.”

Review the table to find an Inspection Station near you and make an appointment, make sure you are using the right seat. Children up to age six must ride correctly secured in a child safety seat, it’s the law.
