FOR IMMEDIATE RELEASE

Construction Update on Link L56C near Hershey

November 22, 2016 (North Platte, Neb.) — On Link 56C, traffic will be shifted to the new roadway alignment on Wednesday, November 30. This includes the use of the roundabout and railroad viaduct. After traffic is shifted, the at-grade railroad crossing at Lincoln Avenue (L56C) and Patterson Avenue will be closed to vehicular traffic. Pedestrian traffic will be maintained at Lincoln Avenue.

After traffic is shifted to the new alignment, construction will begin on the connector road between the roundabout and Lincoln Avenue. During the connector road construction, traffic will be detoured to 2nd Street for access to south Hershey. Weather permitting, the connector road construction is anticipated to take three (3) weeks to complete.

Motorists are reminded to be extra careful in and near highway work zones, and to buckle up, every trip.
