FOR IMMEDIATE RELEASE

Work to Begin on US-6 at Ashland

March 16, 2017 (Lincoln, Neb.) — Weather permitting, work is scheduled to begin on US-6 from Ashland to the Platte River on March 27, according to the Nebraska Department of Roads.

Constructors Inc. of Lincoln, Nebraska has the \$4.5 million contract for the three-mile project. Work consists of concrete pavement repair, new asphalt surfacing, and the rehabilitation of three bridges. The contractor will start the project with lane closures to perform pavement repair work. Two of the three bridges will have one lane closed to traffic with the use of traffic signals to move traffic safely through the bridge construction zones. The anticipated completion date is August 2018.

The Department of Roads' project manager is Brian Schoen of Lincoln. Motorists are being asked to use caution through construction zones, pay attention to changing signs and conditions, and when possible, utilize other routes around the construction zones.
