# Project Timeline

## 23rd Street, Columbus & 10th Street Superfund Site

NH-30-5(134); C.N. 32234

EPA Mitigation of 10th Street Superfund Site to begin August 15, 2022 and conclude in late Fall of 2022. As currently planned, the remaining highway construction could begin as early as Spring of 2023 and be completed by Fall of 2025.

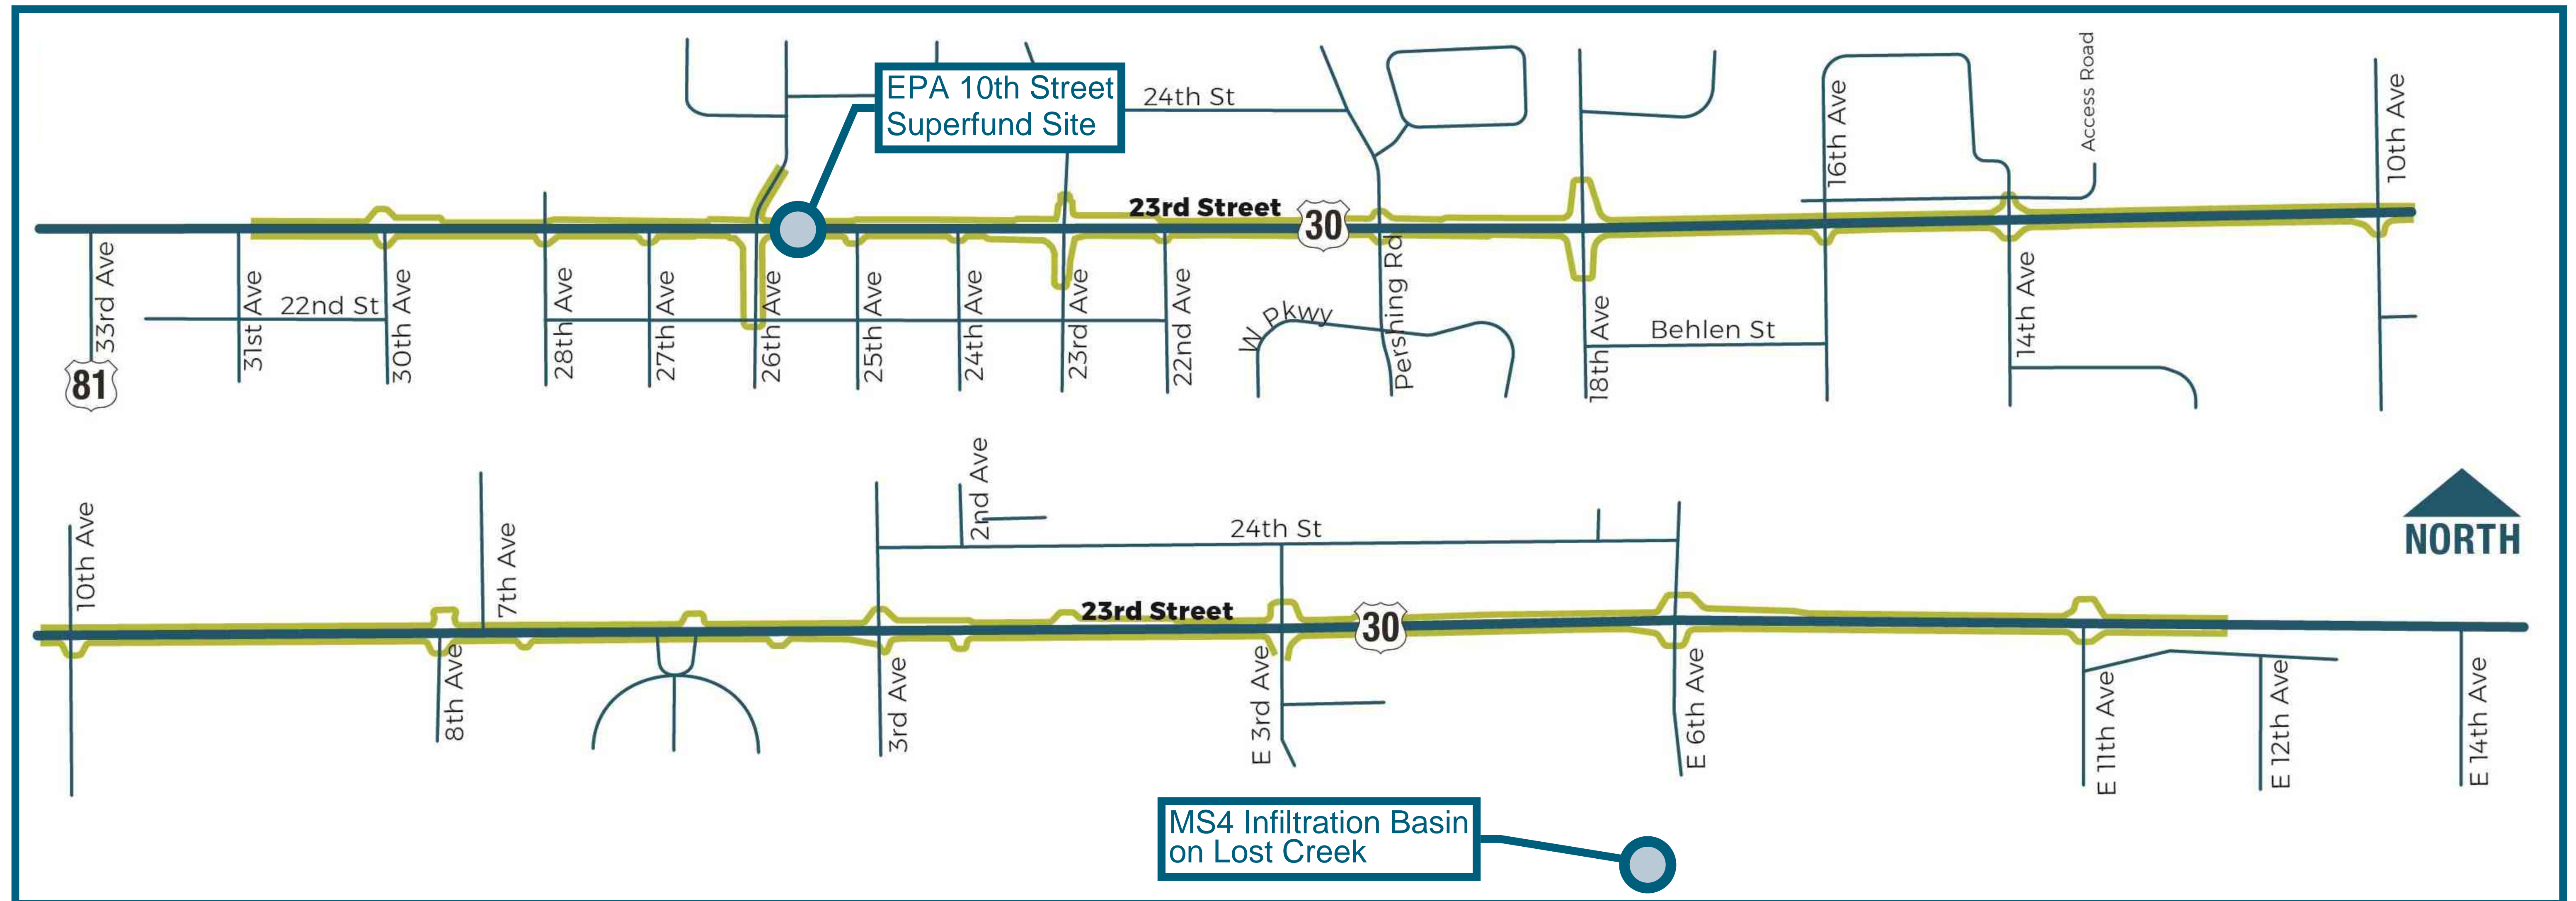

# Purpose & Need

The purpose of the proposed project is to preserve the US-30 transportation asset, improve the reliability of the transportation system, and perpetuate the mobility of the traveling public. The need for the project is based on the condition of the existing roadway.
