# Project History

## US-275/72nd St Interchange, Omaha NH-275-7(194); C.N. 22469

In May of 2015, this proposed project was introduced to a group of adjacent stakeholders for their feedback on an initial design concept. Following that meeting and in consideration of the feedback received, NDOT refined design concepts that are available here today for public input.

# Purpose & Need

## US-275/72nd St Interchange, Omaha NH-275-7(194); C.N. 22469

The **purpose of this project** is to preserve the transportation asset, improve the safety and reliability of the transportation system, and to accommodate future traffic volumes at the US-275/L Street and 72nd Street Intersection.

The **need for the project** is based on information from the NDOT Bridge Division based on the deteriorating condition of the existing bridge and crash rates that are higher than similar type interchanges in Omaha.
